

Lesson 1: Let's Think

Which of the shapes below have $\frac{1}{4}$ shaded?

Lesson 1: Let's Apply

Shade $\frac{1}{3}$ of the shape below.

Shade some more of this shape so that $\frac{1}{3}$ of it is shaded.

Lesson 2: Let's Think

How many ways could you shade $\frac{3}{4}$ of the shape below?

Lesson 2: Let's Apply

$\frac{3}{4}$ of Ellie's number is 12.
What is Ellie's number?

Lesson 3: Let's Think

Can you create a hard and easy question that involves finding a fraction of a number?

What makes your question hard or easy?

Lesson 3: Let's Apply

Isaac buys a toy car from the shop.

He spent £14. He has $\frac{1}{3}$ of his money left.

How much money did Isaac have to begin with?
